# AGENDA : June 18th

- PMI Presentation: **Gilles Wozelka**, PMP, IBM  
President of PMI Sud
- Introduction: **Christian Poujardieu**, IBM LGE lab director.
- The theory : The 5 cultural dimensions  
**Cornelis Vonk**, PMP, Compaq
- Break « Meet the participants »**
- The practice **Jean-Francois Soulard**, IBM
- MS Project in multi-site projects **Gerard Bonnard**, Consultant
- Conclusion: **Michel Operto**, PMP, NCR

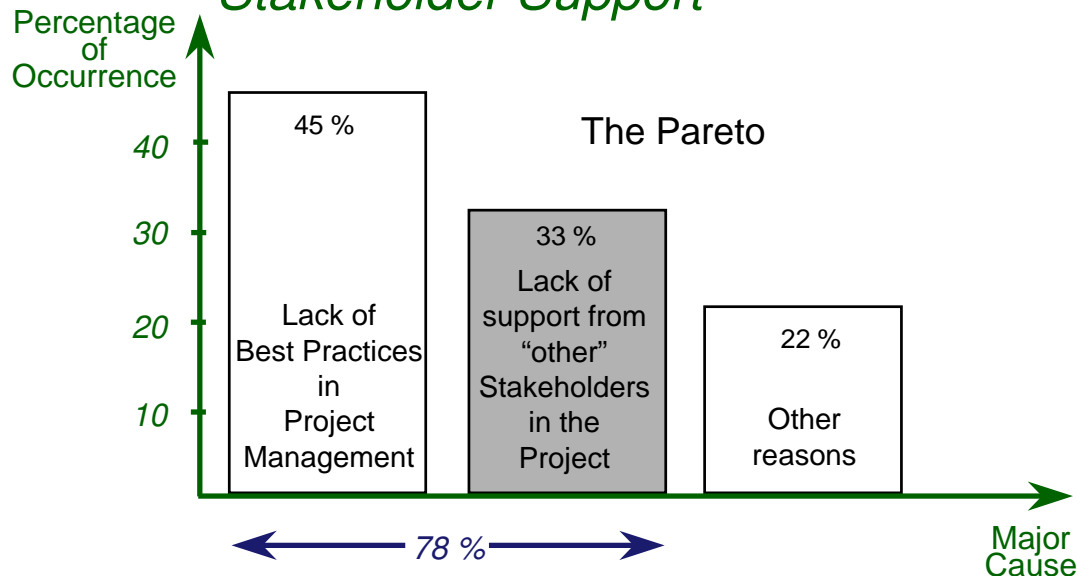

- The Project Management Body of Knowledge (PMBOK) is *an inclusive term that describes the sum of the knowledge within the profession of project management.*

As with other professions such as law, medicine, and accounting, the body of knowledge rests with the practitioners and academics who apply and advance it. The full PMBOK includes knowledge of proven, traditional practices which are widely applied as well as knowledge of innovative and advanced practices which have seen more limited use.

# The Project Stakeholders

## *Lack of Key Stakeholder Support*

- Project stakeholders are individuals and organisations who are actively involved in the project, or whose interests may be positively or negatively affected as a result of project execution or successful project completion.

- ◆ Project Manager and Project Team
- ◆ Client
- ◆ Performing Organisation
- ◆ Sponsor

- ◆ Internal/external
  - owners and funders
  - suppliers and contractors
  - government agencies
  - , ...
